**MINIMUM  
OF 5 LUX**

## What is Lux?

Lux is a unit of illumination. One lux is the amount of illumination provided when one lumen is evenly distributed over an area of one square metre.

## HSE Guidelines

Activity	Typical locations/ types of work	Avg. luminance (lux) 1x	Minimum measured illuminance (lux) 1x
Movement of people, machines and vehicles	Lorry park, corridors, circulation routes	20	5

# WE HAVE GOT WINTER ALL WRAPPED UP

Winter brings a new set of challenges to many projects. Don't let adverse weather slow you down. We have a range of products and solutions to keep your project moving during the toughest months of the year.

## HEATING EQUIPMENT

We supply the full range of heating equipment to suit your specific environment, including electric, infra-red and convection heaters, oil filled radiators, industrial heating and drying fans and oil fired heaters.

## TRAKWAY & BRIDGES

Our Trakway & Bridges provide stability and traction when you need it most. With a range of solutions available our team will survey, plan and install an expert solution.

## DEHUMIDIFIERS & DRYING EQUIPMENT

We supply portable and fixed dehumidifiers with low power consumption and quiet operation to provide fast and efficient dehumidification in a range of commercial, industrial or domestic settings.

## POWER

We provide solutions that go far beyond just generator hire. We offer a complete power management solution tailored to suit your needs.
